

FOR IMMEDIATE RELEASE

Contract Signed Between Stacy Sun & China International Commodity Center

Shanghai, China, April 18th, 2007 – The Asia Pacific-USA Chamber of Commerce (APUCC) is pleased to announce the partnership between Stacy Sun, founder of APUCC, and Sun Hui Ding, director of the China International Commodity Center. This landmark deal truly signifies a win-win situation for both parties.

China International Commodity Center (CICC) is jointly established by the Chinese Council for the Promotion of International Trade and the Shanghai Pudong New Area Government, is the only integrated national-level platform embodying bonded exhibition, trade, and trade services in China. The CICC is designed to help mitigate the U.S. – China trade deficit; it does this by encouraging U.S. companies to sell equipment, technology, and services into China. The CICC is located in the Waigaoqiao Free Trade Zone, an area that is one of the important modern logistics and international trade bases in Shanghai. Many famous international brands have successfully exhibited their wares at the Center, including Panasonic, Intel, Delphi, Olympus, and HP.

The partnership between APUCC and CICC is mutually beneficial in several ways. APUCC will help CICC by utilizing its connections in the United States, and facilitate U.S. businesses in exhibiting their products at the Center. The U.S. businesses, which will jointly use the office and showroom space, as well as on-site engineering services, will benefit from by saving money. In addition, shipping their exhibit products, technologies, and services to the Center is tax free, creating a further incentive for them to participate in this exciting venture.

About APUCC:

Asia Pacific - USA Chamber of Commerce (www.apucc.org) is a non-profit organization established to promote free trade and economic development between the United States and China. Our mission is to facilitate multinational networking that helps our members successfully understand and compete in the US-China marketplace through high quality conferences, trade missions and other member services.
